

# **Developing a Flight Delay Prediction Model using Machine Learning**

TEAM LEADER - M.Ghaja Lakshmi

MEMBER 1 - A.Akshaya

MEMBER 2 - R.Firdous

MEMBER 3 - K.Kaviya

## **Project Objectives:**

- You'll be able to understand the problem to classify if it is a regression or a classification kind of problem.
- You will be able to know how to pre-process/clean the data using different data pre-processing techniques.
- You will be able to analyse or get insights into data through visualization.
- Applying different algorithms according to the dataset and based on visualization.
- You will be able to know how to build a web application using the Flask framework.
